# FUTURE PLANS

After a successful first year, our primary goal is to carry the momentum forward and take Reymonta to the next stage of its growth. What began as a two-person initiative has now evolved into a thriving platform, and our next steps aim to strengthen and expand this foundation.

- **Expanding Our Team**

We plan to collaborate with new team members who share our passion for knowledge and innovation. This will help us increase our content production, enhance quality, and reach a broader audience more effectively.

- **Launching the “Future Scholars” Program**

We aim to establish an internship and mentorship program under the title Future Scholars. This initiative will provide ambitious students and young thinkers with an intellectually rich, dynamic, and practical experience within Reymonta’s ecosystem.

# FUTURE PLANS

- **Hosting Interactive Webinars**

Through a series of live webinars featuring 3-4 guest speakers, we will create a space where participants can interact directly with experts, ask questions, and explore global issues through dialogue and collaboration.

- **Institutional Growth**

Our long-term vision is to transform Reymonta into a registered company, a legal and professional entity that continues to develop innovative projects, partnerships, and educational programs on an international scale.

At Reymonta, we believe that this is only the beginning. With every new idea, collaboration, and milestone, we are shaping a sustainable and globally recognized platform for the next generation of thinkers.

# FROM TWO STUDENTS TO A GLOBAL PLATFORM

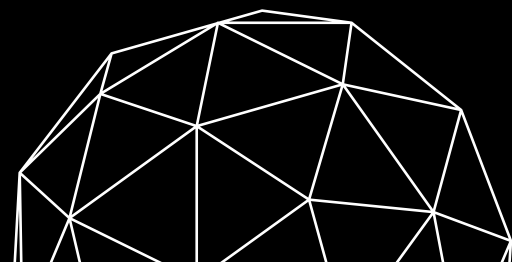

What began as a small initiative by two university students with a shared passion for international relations has grown into a platform that reaches thousands of readers across more than 75 countries.

In just over a year, Reymonta has evolved from an idea into a recognized international space for analysis, reflection, and intellectual exchange.

This achievement reflects our unwavering dedication, curiosity, and belief that meaningful ideas can connect the world.

Every article, every reader, and every collaboration is a reminder of how far we've come, and how much further we can go.

Reymonta's journey is only beginning.
